Safety and Notes

- Product should be installed and serviced in accordance with applicable national, state, and local building and electrical codes.
- To reduce the risk of electric shock, ensure that the main power source and circuit breakers are switched off before performing any installation or wiring procedures.
- Avoid looking directly into lamp when illuminated.
- Ensure all mounts are securely attached and will support the weight of the fixture. Failure to properly support fixture may result in damage or injury, for which the manufacturer does not assume responsibility.

Specifications

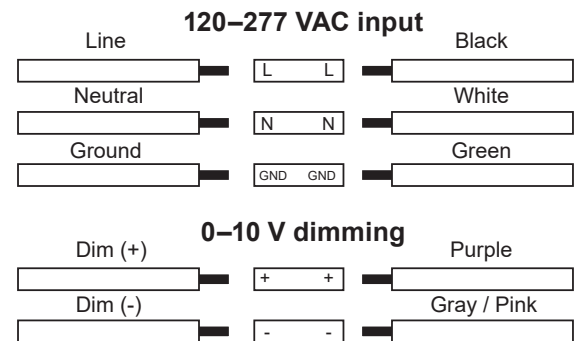

Model	FLL-50K40-20SP
Operating Temperature	-40°–104° F (-40°–40° C)
Environmental Rating	IP65

Check product label for specific electrical specifications related to installation.
Improper installation will void warranty.
