

Important: Read all instructions prior to installation.

LED Troffer Light with App Control

TLFD-TW3C24-845BLE

Safety and Notes

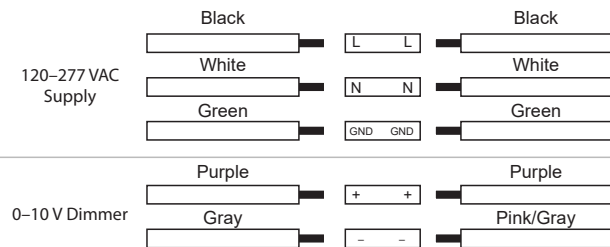

- Product should be installed by a certified electrician in accordance with applicable national, state, and local building and electrical codes.
- To reduce the risk of electric shock, ensure that the main power source and circuit breakers are switched off before performing any installation or wiring procedures.
- Avoid looking directly into the lamp when illuminated.
- Ensure all mounts are securely attached and will support the weight of the fixture. Failure to properly support the fixture may result in damage or injury, for which the manufacturer does not assume responsibility.

Specifications

Model	TLFD-TW3C22-835BLE	TLFD-TW3C24-845BLE
Operating Temperature	-4°–122° F (-20°–50° C)	
Environmental Rating	IP20	
CCT Select and Dimming	Built in sensor for App or Wall Switch	

Check product label for specific electrical specifications related to installation. Improper installation will void warranty.

Wiring Diagram

Installation Instructions

1. Remove supply power from circuit.
2. Make all electrical connections in attached junction box.
3. Lay fixture into T-grid.
4. Bend out safety tabs to be vertical, then upper portion out 90 degrees.

Note: Tabs should be adjusted as needed to allow re-installation of adjacent ceiling tiles. The safety tabs are to prevent the troffer from falling if the grid shifts due to an earthquake, etc. and are not meant to hang the light in the grid.
5. Attach safety cable in accordance with applicable building codes.
6. Apply supply power.
7. Download the Keilton App from the QR code.
